

PRO-ONE Extreme Lubricants

POWERED BY XPL+ TECHNOLOGY

Do you use lubricants in your shop, business, or truck fleet?

The PRO-ONE brand of lubricants is a top-of-the-line, proven product.

What is XPL+ technology?

XPL = Xtreme Pressure Lubrication · **+** = positively charged molecular structure

XPL+ is a bonding lubrication that **bonds to the surface**, reducing metal-to-metal friction and fluid friction, which lowers heat and extends fluid life.
